

# SPECIAL EVENT POWER DISTRIBUTION CENTRE

Model #SEV-1B

- EEMAC 3R enclosure
- Specifically designed for special event facilities that require various receptacles in a self contained, secure single padlockable assembly
- Fitted with patented “DP-AA” series Dandy Device Plate which makes device selection flexible and easy to alter by simply changing the device plate style
- Wall mounted compact design with ample space to insert cables and plugs and close door while in use. Padlockable hinged exterior door makes unit secure for use only when allowed and vandal resistant
- EEMAC 3R weatherproof rating allows for installation indoors, outdoors, and in sprinkler rooms and is rated weatherproof while in use. Code compliant To CEC 26-708
- Branch circuit terminals are factory wired to individual receptacles for easy quick field connection to customer branch circuit supply circuit breakers
- Code gauge metal welded construction
- Safety soft machine formed corners on roof and door for ultimate public safety. Rear mounting dimples for enhanced appearance
- Factory show power labeling • ASA 61 grey powder coat finish
- CSA certified assembly

## Options

- Available In 600V  480V  240V  208V styles
